

City of Monte Sereno

Administrative Clerk I Part – Time (Three days per week, 9am - 5pm)

The City of Monte Sereno

The City of Monte Sereno is situated southeast of the City of Saratoga and adjacent to the Town of Los Gatos, approximately 50 miles southeast of San Francisco. The ideal location provides easy access to State Highways 17 and 85 and is just minutes from the heart of Silicon Valley. Due to the City's beauty, proximity and superior schools, many Silicon Valley executives have chosen Monte Sereno as their home.

The City is named for the 2,580-foot El Sereno Mountain, upon the slopes of which the southern portion of the City is built. Monte Sereno was established in the early 1900's as a rural agricultural community. The area was dotted with ranch houses, orchards, dairies and livestock, and the mountain slopes of the southern portion of the city contained summer homes, recreational properties and a few large estates. The beauty and tranquility of the area attracted artists and writers looking for a peaceful and inspirational place to pursue their craft. In fact, American author John Steinbeck wrote *The Grapes of Wrath* while living there.

Unlike many other cities in Santa Clara County, Monte Sereno did not form on a crossroads or from an historical village. As a result, a commercial core never developed in the City, leaving Monte Sereno as a serene and strictly residential community. Monte Sereno was incorporated in 1957 as a response to the ever-increasing pressure of annexation from the surrounding cities. Residents of the community joined together and decided that incorporation rather than annexation was the best way to ensure the continued way-of-life for the community. The community remains entirely residential, with no commercial zoning and 99% single-family housing, and is an upscale Silicon Valley bedroom community with a population of 3,501 residents.

City Government

The City of Monte Sereno, a General Law City, operates under a Council/Manager form of government. Due to the relatively late incorporation of the City after the community had developed, many special districts that provided services to residents were already in place. This included school districts, utility districts and fire protection districts among others. Consequently, the City was incorporated with the intent to become a minimal services City. Both the City's revenues and structure reflect this objective.

Monte Sereno provides services to its residents either directly or by working with other agencies. It is through these partnerships that Monte Sereno is able to provide high quality services that are economically efficient. The City directly provides administrative services, building permits/inspections, planning/design review, a city clerk/election services and finance services.
